## Projects

---

### Expiration Hub (Java, MySQL, JUnit, HTML)

October 2023 - Present

- Developed an intuitive grocery cart application enabling users to add items, set expiration dates, and save multiple shopping trips into a centralized database, enhancing the efficiency of grocery planning.
- Implemented the project using Java for robust backend logic, MySQL for seamless data storage and retrieval, and JUnit for rigorous testing, ensuring the reliability and accuracy of the application's functionalities.

### Thea's Food Pantry (Java, NodeJS, Rest API, HTML, JS, JUnit)

January 2024 - Present

- Collaborated on the development of a comprehensive school pantry system, facilitating the distribution of food and essentials to students, staff, and faculty in need, promoting a supportive campus community.
- Contributed to both frontend and backend development, employing Java and NodeJS for backend functionalities, while utilizing JavaScript and HTML for a responsive and user-friendly frontend interface, ensuring accessibility for all users.

## Work Experience

---

### Big Y Foods

Worcester, MA

Overnight Dairy Manager

August 2023 - Present

- Spearheaded efficient overnight restocking of dairy products, ensuring product freshness and availability, while fostering a collaborative team environment.

### Worcester Country Club

Worcester, MA

Caddie

June 2018 - September 2021

- Cultivated strong interpersonal and communication skills while serving as a caddie at a private golf club, delivering personalized service and expert guidance to meet the unique preferences of club members and guests.
